## The Clock Is Ticking

A member has generously offered to match up to \$2,000.00 donation to our Scholarship Fund. But only for a limited time.

As an added incentive to donate we have a limited number of books printed in 2000 of the MASF Permanent Collection. This full color publication shows photos of the collection with information about the artist. This book will be given to the first donors of \$100.00 or more until there are none left.

Donations **must be received by June 30, 2017** for us to get the matching donation.

Since 1985 MASF has given scholarships to more than 119 college bound students who are planning to major in art. A grand total of \$133,000.00 has been awarded to date. College costs keep going up. We have had many grateful students over the years and we plan to have many

more. You can help. Any amount is welcome. *We are a 501 c-3. Donations are tax deductible.*

## Charlie Hargraves—A Fine Artist Who Will Be Missed

Charlie Hargraves died peacefully in his sleep on March 19, 2017 at the age of 88.

As an artist he is remembered for creating fine scrimshaw. Charlie's piece "Homeward Bound" won First in Sculpture and Scrimshaw in the 31st Annual MASF Show.

Charles was a long time member of the Miniature Art Society of Florida. He also was a teacher of award winning scrimshaw artist Clayton James.

## Check Out What an Artist Can Do with a Computer

After seeing art created by High School seniors applying for a MASF scholarship, President Kathy Pollak decided to invite several of them to make a 10 to 15 minute presentation showcasing how they create with a computer with a short question and answer period.

Anyone who thinks computer art is cold or too rigid will be surprised at what a creative person can accomplish. All are invited to come to our Stirling Studio on June 17, 2017 at 1:00 PM and see some spectacular art.

You don't need to be a kid to appreciate what these young people do. Kathy has also invited an experienced "young at heart" artist to share his computer "painted" art.

## A Robot Tours MASF 2017 Show

It's not every docent who has a robot following them around. But one day Kathy Pollak made an unusual presentation. She spoke to a robot sharing information about the MASF 2017 Miniature Art Show.

Students who are home-bound still are interested in the world around them. A

Segway with a small laptop attached to its handle allowed several students to enjoy the miniature art long distance.

One young man could not follow the tour when his car taking him to treatment moved out of range. ◆
